PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience in web development, cybersecurity, and automation. Proven track record in penetration testing having conducted security assessments on 10+ web applications with OWASP-aligned reporting, reducing vulnerabilities by 90%. Experienced in building end-to-end applications using React, TypeScript, Node.js, Python, and Flask. Certified Ethical Hacker (CEH) with a security-first mindset — passionate about breaking systems to make them stronger. Strong background in Google Workspace administration, bot development (WhatsApp, Telegram, Discord), and API integration. Looking to collaborate on open-source security tools and innovative automation solutions.

WORK EXPERIENCE

IT Systems & Google Workspace Administrator

September 2024 – March 2026

Kalimantan Tambang Mandiri · Remote

- Reduced communication downtime by 90% via proactive monthly maintenance protocols across enterprise-level Google Workspace environments
- Achieved 100% data redundancy across all critical workloads through streamlined backup and disaster recovery processes
